## *Changing The Game in Lien Management for Agricultural Lenders*

### **Analytics and Reporting**

The lending landscape is changing. To meet agricultural lenders' evolving needs, Lien Solutions has changed the game with the most advanced, complete, one-stop iLien, focused on helping you with end-to-end management of your lien portfolio. Our new interactive Analytics tool with graphic summaries of performance indicators helps you assess portfolio health, streamline processes, reduce risk and ensure lien perfection. The expanded, self-serve Reporting tool offers the data you need, when you need it. By adding Analytics and Reporting to the Manage suite, along with Monitoring, Auto Continuation and interface integration, iLien now offers an unparalleled set of capabilities to enhance your lien operations and a holistic view of your lien portfolio that includes your data within iLien and public records data from jurisdictions nationwide.

#### **ANALYTICS**

**With complete portfolio data, using both iLien and Public Records data visualized using innovative analytics technology, you have:**

- Access to insights to mitigate risk and optimize processes
- Greater confidence in lending activities and decisions
- Information needed to take corrective action, improve quality and avoid financial loss

#### **REPORTING**

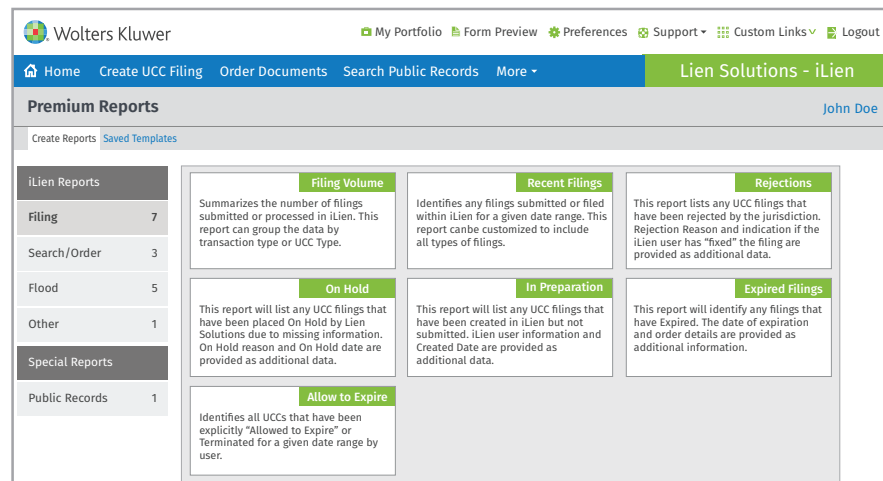

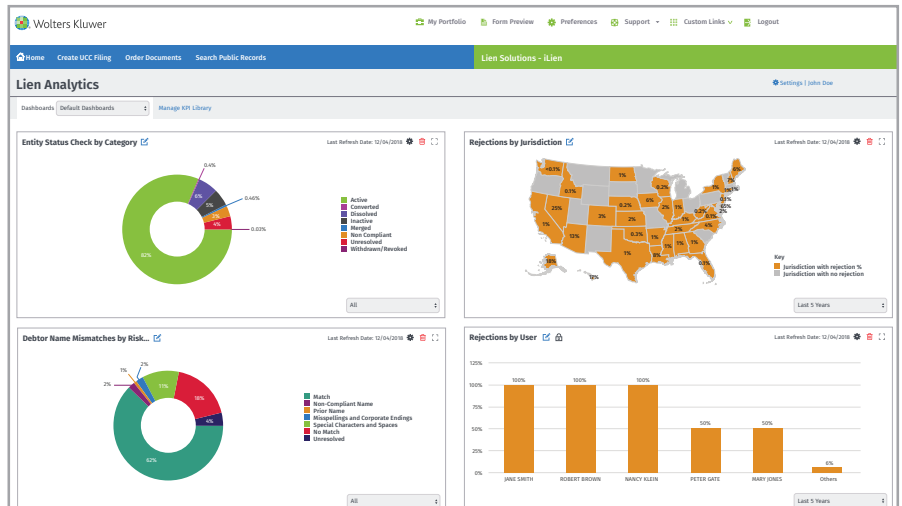

**With your real-time data and iLien's easily customizable, out-of-the-box reports, you can:**

- Better understand portfolio and operational health
- Customize reports with the data and fields you want and generate these reports on demand
- Access data from your linked accounts, seeing a more holistic view of your lien portfolio
- Serve all stakeholders the reports they need

# Analytics

Analytics give you both the portfolio-wide macro view and the ability to drill-down to understand what's happening inside your lien portfolio and operations, and why.

- **Multiple, Customizable Dashboards** – Visualizations that you can tailor to your organization and the needs of your stakeholders
- **Unprecedented Insights** – By adding public records data to Analytics, you have a complete, sophisticated view of your lien portfolio with minimal effort
- **Key Performance Indicators** – Configurable metrics that help you evaluate risk, quality, efficiency and filing volumes
- **Drill Down for Details** – See the underlying data so you know how – and on what – to take corrective action

## Reporting

Reporting makes extensive data readily available via an easy-to-use, self-service reporting option so you have the power to report the way you want.

- **Flexibility and Customization** – Modify existing out-of-the-box reports – or create your own templates – to meet the needs of your stakeholders
- **Convenient Delivery** – Schedule reports on your timeframe – and have them automatically emailed to designated recipients

*Let us show you how Analytics and Reporting can benefit your business. Contact us at 800.833.5778 and choose option 3 today.*
